

QM UrineSmell Killer

Microbial Urine Smell Neutraliser

■ DESCRIPTION:

QM UrineSmell Killer is a very powerful and ready-to-use odor control product that uses biotechnology to combat unpleasant odors at source. These can often be found in bathrooms and toilets. It effectively eliminates uric acid odors.

Benefits

- Effective neutralization of the odor
- Long active operation

■ APPLICATIONS:

QM UrineSmell Killer is ideal for use in public toilets, centers for the elderly, childcare centers (crèches, and early childhood centers, etc.) and portable toilets.

FOR PROFESSIONAL USE.

■ PRODUCT CHARACTERISTICS:

Appearance	Translucent beige liquid
Contents	Surfactants, Cleaners and Naturally- occurring Microorganisms
Shelf Life	1 Year when stored properly.
Packaging	Box of 10 x 1 Liters, jerrycans of 10 Liters

■ **APPLICATION PROGRAMS:**

QM UrineSmell Killer is ready for use. Spray directly on surfaces where odors are detected.

Bathrooms, toilets and public facilities:

Thoroughly clean the floor with QM FloorCleaners such as **QM-OSC**, **MicroCat-BFL** or **MicroCat-ECL**.

Using a spray bottle, spray 2 or 3 times on the floor under each urinal and toilet, as well as in the urinal itself. Leave to work. If necessary, repeat this two or three times a day.

Scents in fabrics - Dirty clothes, diapers, etc .:

For laundry that cannot be washed immediately, spray QM UrineSmell Killer two or three times directly onto the smelly fabrics or objects. Leave to work. Repeat if necessary. Wipe up excess solution.

■ **STORAGE AND HANDLING:**

Storage	7° - 40° C Store indoors at room temperature and dry conditions. DO NOT FREEZE
Handling	CAUTION: Avoid inhalation of liquid mist. Avoid exposing skin to undiluted solution as irritation may result. If material contacts skin or eyes, flush thoroughly and repeatedly with water. Do not ingest
